Hello, I'm a final-year CSE student on an exhilarating coding journey. With over 7 months of hands-on experience in Flutter, I've completed two internships, earning a remarkable stipend of 30k in my last role. I've recently embarked on an exciting journey with React and Next.js projects in my current internship. Seeing my developments go live for end users drives me to strive more for excellence, especially in challenging times. In a nutshell, I love & enjoy my job.

## EXPERIENCE

**Qurinom Solutions**
**20/04/22 to 20/07/22**

**Beyond Health**
**11/08/22 to 31/12/22**

**Beyond Health**
**1/07/22 to --**

- We worked on the Biscuit app shifting the project from Android to Flutter, and getting hands-on with the Firebase firestore, auth, and some other native features of Flutter.
- I started with building UIs, gradually getting to graphs, simple APIs, introduction to Deep links, notifications, in-app storage, remote config, practicing clean code, and many more. My major module was developing a timer for Intermittent Fasting.
- I've joined here, diving into React & Next.js while continually learning with the invaluable assistance of Chat GPT, which has made the learning process remarkably easy.

## MY PROJECTS

**BECUSER WITH IT'S ADMIN PANEL**

**POTSOFT**

**ON THE ROAD**

- built an app for my college to get qps, notes, syllabus, in-time notices, gallery, exam seatings & results, etc with Firebase launched in PlayStore by the name: BECUSER. I've also created a whole admin panel to update all the resources.
- built an application to monitor the potholes on the road capturing the exact location & image of it which helps the govt to take further actions thereby saving lives.
- while learning I've built a **Shopping** App, a **Chatting** App**,** Weather **APIs**, some **Firebase modules**, an **Expense tracker**, and **Greenland** in the hackathon, many more...

## EDUCATION

**BACHELOR OF ENGINEERING**

**CSE 2020 - 2024**
basaveshwar Engineering College vidyagiri bagalkot
**cgpa: 6.7**

**SECONDARY COLLEGE**

Tungal PU Science college Vijayapur
2018 - 2020
**result: 89.5 %**

## ACHIEVEMENTS

**EUREKA! FINALISTS**
Business Plan Competition
E-Cell, IIT Bombay | E-Summit'23

**TECHNOTSAV - FIRST PRIZE**
12 hours hackathon conducted in our college.

## EXPERTISE

- Flutter
- Firebase
- React / Next Js

**ALSO WORKEDN ON**

- React Native
- Web scraping
